## MICE YIKES!!

It's soon to be fall and these little critters will soon be seeking shelter indoors.

To help keep them out use a little Peppermint placed on cotton balls in areas of the home where you have seen them before.

You can also use Pennyroyal and Spearmint as mice supposedly don't care for those either.

Many folks that store their campers and shut up their cabins may want to place several Sachets that have had Peppermint, Pennyroyal and Spearmint added to them and place them throughout their campers or cabins, by placing them in drawers, closets and other places you prefer to keep them out.

Using a few essential oils throughout your home will help keep things smelling fresh too. Since with the cooler temps mean we have to be inside more too.
